Subject: RE: Potential Topics for Discussion
Attachments: O3 Panel Pres for DGS 2 23 15.pdf

Attached is a pdf of my O3 slides. Looks like Will and I used the same slide border, but hopefully not too much content overlap between the presentations. I can go quickly through the Denver slide I have.

Gentlemen:

In advance of our call this afternoon, I thought I would pass along a list of topics/subjects that we may want to touch on during the ozone panel. Of course, I defer to each of you as to what you would like to discuss. I just thought I'd pass these along for your consideration.

- EPA's proposed lower ozone standard – planning/timeline;
- Background ozone issues in the West;
- Regulatory tools to address background ozone;
- Western ozone transport issues;
- CAA Good Neighbor Provision and EPA's Good Neighbor Memorandum (implications for Western states);
- EPA ozone implementation guidance;
- Ozone Advance;
- Uintah Basin potential nonattainment designation – status/timing;
- Uintah Basin regulatory status (e.g., potential FIP);
- Future establishment of ERC Banks for the Uintah Basin or elsewhere;
- Potential new or expanded Colorado nonattainment areas (under proposed and existing NAAQS);
- Potential regulatory tools/plans to address new nonattainment areas in Colorado;

- Colorado ozone SIP timing/status for Denver/Metro NAA;
- Western ozone modeling/study updates;
- Potential relationship/connection between ozone and climate change;
- Uintah Basin study updates.
